

INTERIOR SUITE DOORS | TRENDY LINE

bildtec.

From our Contract collection, Trendy doors add a touch of modernity to any environment. Hidden hinges and a telescopic frame make installation easy and cost effective. Furthermore, Trendy doors feature high sound absorbability and a magnetic lock to ensure a silent, soft closure. All Interior Suite Doors are manufactured with natural and authentic raw materials, and do not undergo any production structural modification.

HIDDEN HINGES

Hidden hinges were created with detail-driven designers and builders in mind. These hinges add to the aesthetic appeal of our doors, while ensuring their reversibility and creating greater installation flexibility.

MAGNETIC LATCH

With their simplistic appearance, our magnetic latches are highly pleasing to the discriminating eye. When the door handle is operated, the latch bolt is retracted and remains in the retracted position. This creates a completely flush finish to the door's edge. Additionally, magnetic latches ensure a silent, soft closure.

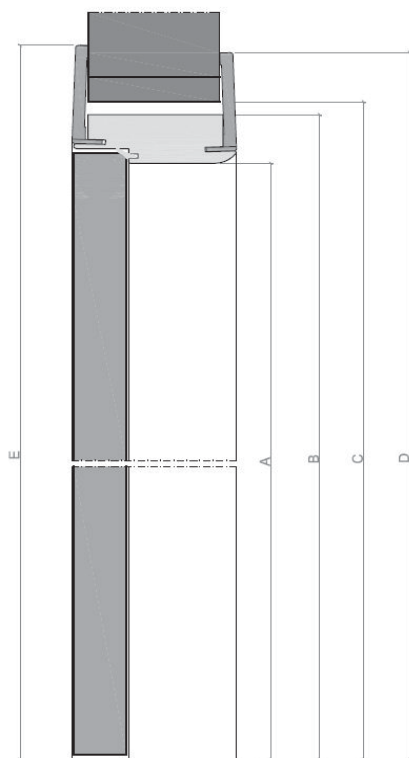

ACOUSTIC SEAL

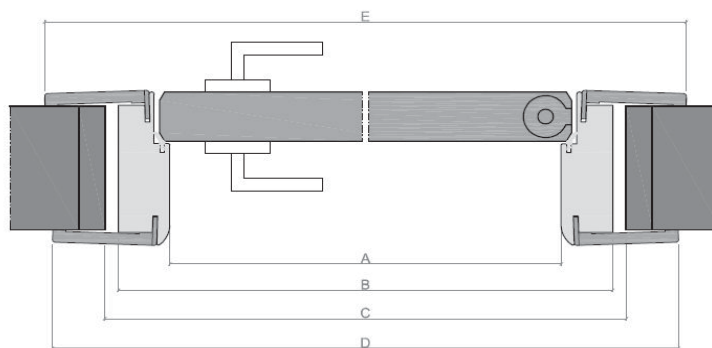

Acoustic seals add to the superior 22DB sound absorbancy of the Trendy collection.

FEATURES

- Reversible swing door
- Hidden hinges
- Telescopic frame
- Matching moulding
- Magnetic strikes
- Acoustic seals
- Quality manufacturing from Milano Italy
- High sound absorbancy 22DB
- Melamine scuff resistant finish

- 2100 height
- Honeycomb core

ACCESSORIES

- Matching door stops
- Pine wood frame (70mm or 100mm)
- Handles
- Matching baseboards
- Glass door options available
